The Price & Lee Company is pleased to publish the 1975 edition of the Brunswick City Directory. The City Directory contains household and business information within five major sections.

I. The Buyers Section, printed on ivory paper, displays under appropriate headings, those advertisers within the community who ardently support the directory service and desire to make a presentation of their products and services.

II. The Classified Section, printed on yellow paper, lists alphabetically under appropriate headings those businesses contained throughout the City Directory, serving as a comprehensive guide of the business sector in the community.

III. The Alphabetical Section, printed on white paper, is a complete alphabetical listing of all available households and businesses; and defines that information according to home and business addresses, occupations, marital status, etc.

IV. The Street Section, printed on green paper, contains in alphabetical sequence all streets; and list under each street description in numerical or house sequence the dwellings on that street, the occupant, telephone number if possible, and an indication of whether the home is privately owned. Business information is characterized by job description where pertinent.

V. The Telephone Section, printed on blue paper, is a complete list of all phones numerically listed under appropriate exchanges giving telephone number and owner.

The five sections of the City Directory, along with the introduction (including governmental information) gives a complete survey of the population of the Brunswick community.

THEATRES
Two movie theatres and two drive-ins. Pickard Theatre, Bowdoin Campus, home of Brunswick Music Theatre.

HISTORY

Brunswick, Maine, is the shopping center for the East Casco Bay area. It is a community of approximately 17,500 population, and is an unusually attractive town with wide, well-planned streets and a great many old trees and houses.

The principal street, Maine Street, was laid out in 1717, when the citizens voted to construct a thoroughfare that would be 12 rods wide. This was an unusual thing to do in a time when cities were not generally planned, but grew up higgledy-piggledy. Maine Street, named after the State of Maine, retains its original width and is the widest street in Maine.

Brunswick was first settled in 1628, and originally called "Pejepscot". The town was incorporated in 1738, and named in honor of the House of Brunswick, England.

Brunswick started life as a fur-trading post, run by a Thomas Purchase. He developed a superior method of curing the salmon that he caught in the falls and built up such a good business in exporting fish along with his furs that others were attracted to the vicinity, and quite a thriving little settlement evolved.

Purchase consistently cheated the Indians, however, so that the first violence of King Philip's War in Maine was the destruction of the Purchase block house. The place was constantly harassed all during the French and Indian Wars, in spite of the building of forts and the placing of garrisons. During the wars, Brunswick was burned and re-established three times.

Two stories concerning the Indian name for the town conflict. One has it that the original name meant "crooked like a diving snake", describing a part of the Androscoggin River; another points to its being a favorite and best hunting ground of the Indians --"place of much fish, fowl, and beasts".

Conflict that existed between the white men and Indians settled down in 1730, when the uninterrupted development of Brunswick really began.

Today Brunswick is a thriving, growing community which has maintained a colonial and traditional, quiet atmosphere for living. The major business activity of the town is commercial, but light industry is finding the community increasingly attractive. An active citizen's industrial development committee participates in all facets of industrial development. The highly adaptable labor supply, converging highways and transportation facilities, stable tax rate, and wonderful liveability of the area make it extremely suitable for new and expanding industry.

Area liveability is enhanced by an excellent school system, and a progressive community facility improvement program. The two modern hospitals have served to attract an excellent medical staff to the area.

Retail trade has been the backbone of Brunswick for many years. The remodeling of retail outlets and the construction of large new shopping centers are serving to reinforce Brunswick's position as an area trading center.

Recreational and vacation facilities in the Brunswick Area are appealing to all members of the family. The Summer Playhouse, Animal Park, and beaches all add to the pleasure of the scenic rocky coastline with its fishing villages and recreational opportunities.

Of great importance to the Town is the operation of the Brunswick Naval Air Station. The increase in population associated with the operation of this base has been of value in raising the whole level of trading and commercial facilities available to local residents. It should also be noted that the Town has many more indirect ways which it has benefitted from the influx of residents drawn from all over the country.

While Brunswick is thus able to offer an unusual variety of cultural, recreational and commercial attractions to its citizens, it still has the charm of a small town. In addition, its own resources and opportunities are supplemented by the easy accessibility to Portland and Boston.

But the best monument in Brunswick is no man-made thing; rather, it is the famed Bowdoin Pines, which are located on Bath Street. They are the small remnant of the dense forest that once covered the whole country with white pines. These are the pines that were once called the mast pines, the pines on which the great shipbuilding industry of Maine was based, the pines that caused much of our trouble with England. This great natural resource was squandered prodically, until only this little grove remains, saved through the foresight of the College. Some of the trees rise 70 feet before the branches begin, and many of them were standing there before the first white man came to America.

The history of Bowdoin College, which is nearly coextensive with that of the Republic, has its full share of stirring and picturesque episodes but, with perhaps one exception, is free from those dramatic crises which offer a ready means of division into "periods". Contemplating the development of the tiny seminary of learning which opened its single narrow door to students in 1802 into the vigorous and firmly established college of today, with its multifarious activity, we are impressed by the gradualness of the transformation, the continuity underlying change. One contributing factor has been the relatively long terms of the administrators; in the 168 years of its active history, Bowdoin has had but ten presidents. The terms of Presidents Hyde and Sills alone span sixty-seven years. It is, then, largely for reasons of convenience that we may mark off four periods: the first from 1794, the year of incorporation, to 1802, covering the founding of the College; the second from 1802, the year the College opened, to 1839, extending through the terms of Presidents McKeen, Appleton, and Allen; the third from 1839 to 1885, including the terms of Presidents Woods, Harris, and Chamberlain; the fourth from 1885 to the present time, comprising the terms of Presidents Hyde, Sills, Coles and Howell.

TUNJO–DOES HE MAKE WISHES COME TRUE??

This is a Tunjo

It was believed by the Colombian Indians to have the power of making wishes come true. This design was taken from a Tunjo (the most powerful man) made of solid gold and was believed to have the double nature of spirit (with wings) and body (a scorpion). It may be seen in the Gold Museum in Bogota.

You could probably paint a picture of a Tunjo on a piece of plain paper, burlap or cloth, and hang it on your wall. Every morning when you rise, you could make a wish that business will get better.

Or You could be more positive and place an advertisement in the **CITY DIRECTORY.**

Lack of advertising... beneficial to some!

When Mark Twain was a young man, he was editor and publisher of a growing newspaper in a small Missouri town. One day he received a letter from one of his subscribers. The subscriber said that he had found a spider in that morning's edition of his paper. He wanted to know if this was an omen of good luck, or of bad luck. Mark Twain, a hustling space salesman as well as an editor, wrote to his customer:

Dear Sir:

Finding the spider in your newspaper yesterday morning was neither good luck or bad luck for you. The spider was merely looking over our paper to see which of the town's merchants is not advertising. He will then go to that store, spin his web across the door, and lead a life of undisturbed peace ever afterward.

Act now! Arrange for your Ad to appear in our next edition

Price & Lee's

STREET AND AVENUE GUIDE

A LISTING OF AREA STREETS AND AVENUES INCLUDING HOUSEHOLDS, OCCUPANTS OF OFFICE BUILDINGS AND OTHER BUSINESS PLACES WITH TELEPHONE NUMBERS, AND ZIP CODES

the price & lee company

BRUNSWICK STREET DIRECTORY

EXPLANATORY NOTES

The streets are arranged alphabetically with their descriptions, each description followed by a numerical arrangement of hou olders, places of business and street intersections. (Arranged by rotation where no numbers have been assigned.)
The abbreviation r between the street number and the name signifies "rear".
The word "vacant" after a number signifies that the house, office or store at that number was vacant when the canvass was m
"Right odd" after street description indicates odd numbers on right side of street.
The symbol * following a householder's name indicates that information has been secured during the canvass that the house i wned by some member of the family, but as the publishers cannot and do not guarantee the correctness of the information furnis or the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publishers furnish further nformation than that shown.
S Res Denotes Summer Residence

Please Note The Zip Code For The Town of Brunswick is 04011.

Common Sense

About City Directory Circulation

THE true value of advertising circulation is *circulation consulted.*

TO be exact by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

TO be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR every thousand directories sold there will be an average of three and one-half daily consultations for each book for *three hundred and five days*, therefore—

1000 x 3½ x 305=

Lack of advertising... beneficial to some!

When Mark Twain was a young man, he was editor and publisher of a growing newspaper in a small Missouri town. One day he received a letter from one of his subscribers. The subscriber said that he had found a spider in that morning's edition of his paper. He wanted to know if this was an omen of good luck, or of bad luck. Mark Twain, a hustling space salesman as well as an editor, wrote to his customer:

Dear Sir:

Finding the spider in your newspaper yesterday morning was neither good luck or bad luck for you. The spider was merely looking over our paper to see which of the town's merchants is not advertising. He will then go to that store, spin his web across the door, and lead a life of undisturbed peace ever afterward.
