The Price & Lee Company is pleased to publish the 1977 edition of the Brunswick City Directory. The City Directory contains household and business information within five major sections.

I. The Buyers Section, printed on ivory paper, displays under appropriate headings, those advertisers within the community who ardently support the directory service and desire to make a presentation of their products and services.

II. The Classified Section, printed on yellow paper, lists alphabetically under appropriate headings those businesses contained throughout the City Directory, serving as a comprehensive guide of the business sector in the community.

III. The Alphabetical Section, printed on white paper, is a complete alphabetical listing of all available households and businesses; and defines that information according to home and business addresses, occupations, marital status, etc.

IV. The Street Section, printed on green paper, contains in alphabetical sequence all streets; and list under each street description in numerical or house sequence the dwellings on that street, the occupant, telephone number if possible, and an indication of whether the home is privately owned. Business information is characterized by job description where pertinent.

V. The Telephone Section, printed on blue paper, is a complete list of all phones numerically listed under appropriate exchanges giving telephone number and owner.

The five sections of the City Directory, along with the introduction (including governmental information) gives a complete survey of the population of the Brunswick community.

HISTORY

Brunswick, Maine, is the shopping center for the East Casco Bay area. It is a community of approximately 18,000 population, and is an unusually attractive town with wide, well-planned streets and a great many old trees and houses.

The principal street, Maine Street, was laid out in 1717, when the citizens voted to construct a thoroughfare that would be 12 rods wide. This was an unusual thing to do in a time when cities were not generally planned, but grew up higgledy-piggledy. Maine Street, named after the State of Maine, retains its original width and is the widest street in Maine.

Brunswick was first settled in 1628, and originally called "Pejepscot". The town was incorporated in 1738, and named in honor of the House of Brunswick, England.

Brunswick started life as a fur-trading post, run by a Thomas Purchase. He developed a superior method of curing the salmon that he caught in the falls and built up such a good business in exporting fish along with his furs that others were attracted to the vicinity, and quite a thriving little settlement evolved.

Purchase consistently cheated the Indians, however, so that the first violence of King Philip's War in Maine was the destruction of the Purchase block house. The place was constantly harassed all during the French and Indian Wars, in spite of the building of forts and the placing of garrisons. During the wars, Brunswick was burned and re-established three times.

Two stories concerning the Indian name for the town conflict. One has it that the original name meant "crooked like a diving snake", describing a part of the Androscoggin River: another points to its being a favorite and best hunting ground of the Indians --"place of much fish, fowl, and beasts".

Conflict that existed between the white men and Indians settled down in 1730, when the uninterrupted development of Brunswick really began.

Today Brunswick is a thriving, growing community which has maintained a colonial and traditional, quiet atmosphere for living. The major business activity of the town is commercial, but light industry is finding the community increasingly attractive. An active citizen's industrial development committee participates in all facets of industrial development. The highly adaptable labor supply, converging highways and transportation facilities, stable tax rate, and wonderful liveability of the area make it extremely suitable for new and expanding industry.

Area liveability is enhanced by an excellent school system, and a progressive community facility improvement program. The two modern hospitals have served to attract an excellent medical staff to the area.

Retail trade has been the backbone of Brunswick for many years. Continued remodeling of downtown retail outlets and the repeated expansion of a large shopping center serves to reinforce Brunswick's position as an area trading center.

Recreational and vacation facilities in the Brunswick Area are appealing to all members of the family. The Summer Playhouse, Animal Park, and beaches all add to the pleasure of the scenic rocky coastline with its fishing villages and recreational opportunities.

Of great importance to the Town is the operation of the Brunswick Naval Air Station. The increase in population associated with the operation of this base has been of value in raising the whole level of trading and commercial facilities available to local residents. It should also be noted that the Town has many more indirect ways which it has benefitted from the influx of residents drawn from all over the country.

While Brunswick is thus able to offer an unusual variety of cultural, recreational and commercial attractions to its citizens, it still has the charm of a small town. In addition, its own resources and opportunities are supplemented by the easy accessibility to Portland and Boston.

But the best monument in Brunswick is no man-made thing; rather, it is the famed Bowdoin Pines, which are located on Bath Street. They are the small remnant of the dense forest that once covered the whole country with white pines. These are the pines that were once called the mast pines, the pines on which the great shipbuilding industry of Maine was based, the pines that caused much of our trouble with England. This great natural resource was squandered prodically, until only this little grove remains, saved through the foresight of the College. Some of the trees rise 70 feet before the branches begin, and many of them were standing there before the first white man came to America.

The history of Bowdoin College, which is nearly coextensive with that of the Republic, has its full share of stirring and picturesque episodes but, with perhaps one exception, is free from those dramatic crises which offer a ready means of division into "periods". Contemplating the development of the tiny seminary of learning which opened its single narrow door to students in 1802 into the vigorous and firmly established college of today, with its multifarious activity, we are impressed by the gradualness of the transformation, the continuity underlying change. One contributing factor has been the relatively long terms of the administrators; in the 168 years of its active history, Bowdoin has had but ten presidents. The terms of Presidents Hyde and Sills alone span sixty-seven years. It is, then, largely for reasons of convenience that we may mark off four periods: the first from 1794, the year of incorporation, to 1802, covering the founding of the College; the second from 1802, the year the College opened, to 1839, extending through the terms of Presidents McKeen, Appleton, and Allen; the third from 1839 to 1885, including the terms of Presidents Woods, Harris, and Chamberlain; the fourth from 1885 to the present time, comprising the terms of Presidents Hyde, Sills, Coles and Howell.

We Signed Our Declaration of Independence in 1853

When the Riley Insurance Agency was formed in 1853 we decided to be an independent insurance agency — to work for our customers instead of working for only one insurance company. When you visit us we'll be choosing from several different insurance companies to give you the policy best suited to your needs. That's independence!

The *Motor Hotel* has the BIGGEST BEDBUGS in Town!

When a young advertising salesman suggested to a small town hotel proprietor he begin a schedule of Display Ads aimed at Local Patrons, he agreed that the suggestion had merit. He felt however that he could not afford large enough Ads and stated "Nobody Reads Small Ads."

The Adman disagreed and was so sure of his service that he offered to run a series of one inch Ads free of charge providing that he could write the copy. The innkeeper thought this request was reasonable and responded with an "O.K., but what are you going to say in my Ads?"

"Nine Words," said the salesman. "It will read: The Motor Hotel Has The Biggest Bedbugs In Town."

The hotelman shouted, "You'll drive me out of business!"

"But Sir!" said the salesman, "You said no one ever reads small ads."

* * *

People do read small ads. Many a large business started with small ads, and only because the Small Ads produced results were they able to become Big Advertisers. Don't put off telling people about your Products and Services just because you can't compete Size-Wise with large businesses. Discuss it with our representative. He'll have some good ideas for you.

BRUNSWICK STREET DIRECTORY

EXPLANATORY NOTES

reets are arranged alphabetically with their descriptions, each description followed by a numerical arrangement of house
places of business are given street intersections. (Arranged by rotation where no numbers have been assigned.)
breviation r between the street number and the name signifies "rear".
ord "vacant" after a number signifies that the house, office or store at that number was vacant when the canvass was made
odd" after street description indicates odd numbers on right side of street.
mbol * following a householder's name indicates that information has been secured during the canvass that the house is
some member of the family, but as the publishers cannot and do not guarantee the correctness of the information furnished
mplete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publishers furnish further
n than that shown.

The
Motor Hotel
has the
BIGGEST BEDBUGS
in Town!

When a young advertising salesman suggested to a small town hotel proprietor he begin a schedule of Display Ads aimed at Local Patrons, he agreed that the suggestion had merit. He felt however that he could not afford large enough Ads and stated "Nobody Reads Small Ads."

The Adman disagreed and was so sure of his service that he offered to run a series of one inch Ads free of charge providing that he could write the copy. The innkeeper thought this request was reasonable and responded with an "O.K., but what are you going to say in my Ads?"

"Nine Words," said the salesman. "It will read: The Motor Hotel Has The Biggest Bedbugs In Town."

The hotelman shouted, "You'll drive me out of business!"

"But Sir!" said the salesman, "You said no one ever reads small ads."

* * *

People do read small ads. Many a large business started with small ads, and only because the Small Ads produced results were they able to become Big Advertisers. Don't put off telling people about your Products and Services just because you can't compete Size-Wise with large businesses. Discuss it with our representative. He'll have some good ideas for you.

Act now! Arrange for your Ad to appear in our next edition.
