C. M. Plummer, Agent, Bath, Me.

TYPE & GAY DRUGGISTS AND APOTHECARY

ESTABLISHED 1839.

B. THURSTON & CO., JOB PRINTERS.

THE LARGEST OFFICE IN MAINE.

Fully fitted with the best machinery, and good workmen for every kind of Job, Pamphlet, Book and Newspaper work.

C. MORSE, M. D.,
PORTLAND, ME.

INHALATION.

The public are beginning to have a correct idea of the great benefit arising from the inhalation of medicinal remedies, which have been for the last fifteen years successfully practiced by C. MORSE, M. D., of Portland. Dr. Morse introduced the system of

COLD MEDICATED INHALATION,

In New England many years since, which has worked wonders in the cure of

PULMONARY DISEASES,

Such as

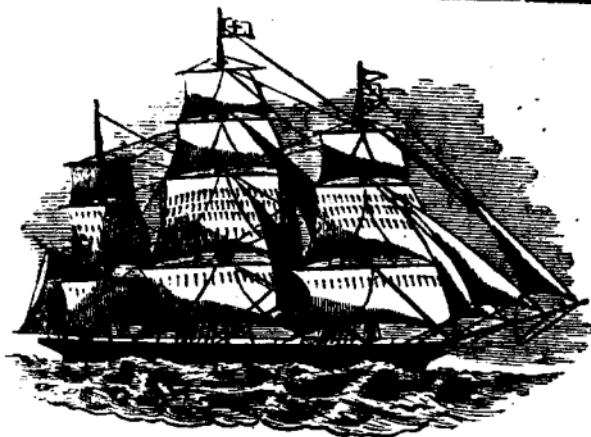

**Consumption, Bronchitis, Asthma,
CATARRH,**

And the various affections of the

THROAT AND LUNGS.

Dr. Morse's success is too well known for me to doubt

STANDARD MILLING MACHINES, MADE BY THE UNION VISE COMPANY, OF BOSTON.

This machine weighs nearly 2300 pounds; the spindle is of solid steel, three inches in diameter, and takes a mill arbor of $1\frac{1}{2}$ inches diameter. The supporting arm and outside centre is five inches in diameter where it joins the machine, a portion of the outer end is straight to allow adjustment of outside centre to differing lengths of mill arbors; this arm can be readily removed whenever desirable; it is fixed at such a distance above the spindle as will allow mills of upwards of eight inches diameter to be used under it, and we are daily running mills of this size through steel as well as iron, and some of them at a distance of fourteen inches from front of machine, and that without chattering or perceptible vibration.

The capacity of the machine is sufficient to receive a piece fifteen inches high under centres, and to mill twenty-two inches in length. The feed motion is undisturbed by movements of the carriages in any direction, and is so arranged that the feed belt can be tightened without unlacing. The worm and worm gear connected with feed screw are of tempered steel, the feed screw is provided with check nuts for taking up all slack motion, and the bronze nut in which it works is in halves, with provision for tightening as it wears,—an entirely new feature. The body of the machine forms a closet for the reception of tools, &c. The workmanship is thorough, and the utmost care is observed that every part of the machine to the smallest detail shall be faithfully and accurately finished and fitted.

Price of machine, including counter shaft and hangers, with fast and loose pulleys, and iron cone, \$850.00.

A smaller machine is in process of construction, upon the same general principles but intended for lighter work; it will have a hollow spindle with screw on the end for using a chuck upon it, with other features which will be specified in future circulars. The price is estimated at about one-half that of the large machine.

UNION VISE COMPANY, OF BOSTON.

G. H. NOTT, PRES.
C. T. CHILD, TREAS.

FRENCH DYE HOUSE, Watertown, Mass.

Office for the Reception of Goods,
150 Washington Street, Boston.

BATH, BRUNSWICK AND RICHMOND
DIRECTORY,
FOR 1867-8,

CONTAINING THE NAMES OF THE CITIZENS,

AND A

BUSINESS DIRECTORY,

WITH A LIST OF

CITY AND TOWN OFFICERS, SOCIETIES, BANKS, ETC.

By LANGFORD & CHASE,
BOSTON, MASS.

BATH:
JOHN O. SHAW.
1867.

Entered according to Act of Congress, in the year 1867, by
LANGFORD & CHASE,
in the Clerk's Office of the District Court of the District of Massachusetts.

STEVENS & SAYWARD, PRINTERS, AUGUSTA, ME.

PREFACE.

We herewith present to our patrons and the public, the first number of the Bath, Brunswick and Richmond Directory, sincerely hoping it may prove satisfactory. The work has been compiled entirely from original sources, and every effort has been made to make it correct; but without doubt errors have crept in, which is unavoidable in a work of this kind. Future editions will be issued as the wants of the public demand, and we hope to be able to improve upon the present and show an increase in population and wealth.

We commend to public attention our Advertising Department, where may be found the cards of the *enterprising business men* of the three places. We bespeak for them your patronage.

For the favors so liberally bestowed upon us by the business community, and the willingness shown by all to assist us in the compilation of this work, we tender our sincere thanks.

LANGFORD & CHASE,

Publishers.

BOSTON, October 20, 1867.

General Ticket Agent P. & K. R. R.

AUGUSTA, ME.

Send to J. W. Stockwell & Co., 163 Danforth St., Portland, for
Hydraulic Cement Pipe.

Portland & Kennebec R. R.

Passenger trains leave BOSTON daily at 7.30 A. M., and PORTLAND at 1.00 P. M., for all stations on this line, and for Lewiston on the Androscoggin Road, and Pittsfield, Newport and Bangor on the Maine Central Road.

Leave BOSTON daily at 3.00 P. M., and PORTLAND at 8.15 P. M. for Bath and Augusta.

AN EXPRESS TRAIN leaves Augusta daily at 4 P. M. for Boston, connecting at Portland with Evening Express Train, arriving in Boston at 11.00 P. M. *This is the only route East without break of guage at Portland, and the only route by which a passenger from Boston and stations on the Eastern and Boston & Maine Railroads can certainly reach Skowhegan the same day by railroad.*

With the Through Freight Trains each way, between Portland and Skowhegan, a passenger car is attached, for the accommodation of travellers.

At Portland ample time is made for dinner and supper, in passing to and from Boston.

Fare as low by this route to Lewiston, Waterville, Kendall's Mills and Bangor, as by the Maine Central Road; and tickets purchased in Boston for Maine Central stations are good for a passage on this line. Passengers from Bangor, Newport, &c., will purchase tickets to Kendall's Mills only, and after taking the cars of the Portland & Kennebec Road, the Conductor will furnish tickets and make the fare the same through to Portland or Boston as via the Maine Central Road.

Stages leave Bath, Augusta, Vassalboro', Kendall's Mills and Skowhegan for the principal towns North and East on their routes.

W. HATCH, *Superintendent.*

BRUNSWICK DIRECTORY.

EXPLANATION OF ABBREVIATIONS.

The letter **h.** for house; **bds.** boards; **Cal.** California; **opp.** opposite; **r.** rear; **c. or cor.** corner; **wf.** wharf; **n.** near; **sq.** square; **pl.** place; **ct.** court; **ave.** avenue; **bet.** between; C. M. Co. Cabot Manufacturing Co.; R. R. Railroad; P. & K. R. R. Portland and Kennebec Railroad; P. O. Post Office; U. S. A. United States Army; U. S. N. United States Navy. Where the name of a corporation or factory appears immediately after the name, it indicates the place of business. After the name of the street, the word street is omitted.

Ready Strung Labels, a new thing, and as cheap as others, at the Monitor Printing Office, 165 Federal St., Portland.

Edward N. Packard, M. A., Assistant Professor of Mathematics.

John A. C. Fellows, B. A., Tutor in Greek and Latin.
William C. Dole, Director of the Gymnasium.

Bowdoin College was established in 1794 by act of Legislature of Massachusetts, and named in honor of the Bowdoin family. It was endowed by grant of five townships in Maine, and by gifts of Hon. James Bowdoin, afterwards U. S. Minister Plenipotentiary to Spain, of money and lands. Mr. Bowdoin, also left to the College at his death his valuable library and collections of paintings. The College went into operation in 1802. Graduated its first class in 1806. The first building erected was Massachusetts Hall, on ample grounds south of the village fronting on Main street, one fourth of a mile, since enclosed with a hedge and border of shrubbery, and adorned with elms, maples and other trees. The first President was Rev. Joseph McKeen, D. D., who died in 1807. He was succeeded by Rev. Jesse Appleton, D. D., 1807 to 1819; Rev. William Allen, D. D., 1820 to 1839; Rev. Leonard Woods, D. D., 1839 to 1866; Rev. Samuel Harris, D. D., 1866,—present incumbent. Present buildings are Massachusetts Hall, long used as a Medical and Chemical Hall, now occupied by the Cleaveland Cabinet, Treasurer's office, and an Astronomical Lecture room; Winthrop, Maine, and Appleton Halls; Adams Hall devoted to the uses of the Medical School and the Professor of Chemistry and Natural Science; the Gymnasium; the Chapel, a noble edifice of granite, containing the Chapel proper, the College Library, Bowdoin Gallery, and Library of the Maine Historical Society; and the President's Mansion on Federal street,—all of brick excepting the Chapel, granite, and President's Mansion, wood.

Number of volumes in College Library, 16,250. Medical, 3,550; Peucinian, 6,850; Athenæan, 5,650.

Two funds, the Lawrence and the Lord, yield about \$600 per year for the assistance of students depending

Wedding and Address Cards, new style, at the Monitor
Printing Rooms, Portland.

lustration of the principles of Chemistry. This course also includes a very full exhibition of the principles of Common and Galvanic Electricity, Electro-Magnetism, and Magneto-Electricity, with numerous experiments.

Lectures will also be given to the Medical Class on those departments of Natural Philosophy, which are especially connected with Medical Science.

SURGERY.—An extensive and valuable collection of Instruments and Apparatus has been provided for the department of Surgery; which will be completed by the Professor in this Department. Frequent opportunities for witnessing Surgical operations will be afforded.

All operations in the presence of the Medical Class will be performed *without charge*. It is considered important that this fact should be extensively made known to the public.

The advantages offered by this College for acquiring a thorough education in all departments of Literature and Medical Science, are believed to be equal to any similar Institution in the country.

It will be the constant aim of the Faculty ever to make it worthy of the favorable consideration of the Sons of Maine, and one they may always feel justly proud to claim as their *alma mater*.

Present number of students—Medical, 102; College, 119. Total, 221.

CORPORATION.

CABOT MANUFACTURING CO.

President, B. W. Gleason, Rock Bottom, Mass.; *Treasurer*, Francis Cabot, Boston, Mass.; *Agent*, Benjamin Greene, Brunswick; *Paymaster*, Samuel L. Johnson, Brunswick.

When in full operation, about 500 hands will be employed, the mill running 25,000 spindles. The goods manufactured are fine and coarse sheetings; 50,000 yards of the former and 25,000 yards of the latter will be manufactured per week.

They do say J. W. Stockwell & Co.'s Hydraulic Cement Pipe is a tip-top thing.
