PREFACE.

In accordance with our usual custom of publishing the Directory of Bath, Brunswick and Richmond, we now present No. 6 of the regular series, believing its fullness and correctness will fully sustain, if not surpass, its former reputation. Of its welcome reception by our former patrons and the general public we have the fullest confidence.

We have taken the usual pains to have all information furnished made as correct and reliable as possible, and trust we have succeeded in so doing.

Some means should be devised by which every building used for any purpose should have a number placed upon it, unless it is on some country road where it would be nearly impossible to have it done, as a number is a great assistance in finding a house and the person in it.

As places grow in importance and population, the directory increases in value as a book of reference. A good directory is a great benefit to a place, not only to the citizens, but to strangers and visitors who are constantly referring to its pages for information of some kind.

We wish to say to our advertising patrons that orders for our directories come to us from distant parts of this and foreign countries, showing that our circulation is not limited to the cities they represent.

We wish especially to call the attention of persons using the directory, to the importance of knowing the precise spelling of a name, before looking for it, as names, pronounced the same, but spelled in various ways, will appear on different pages, and at quite a distance from each other.

	1883	1880	Increase.
Names in Bath,	2,913	2,789	124
Names in Brunswick,	1,923	1,669	259
Names in Richmond,	1,107	857	250

Our agents have received the usual courteous attention from all with whom they have come in contact while obtaining the information for this number, and with many thanks for the same,

We remain, very respectfully,

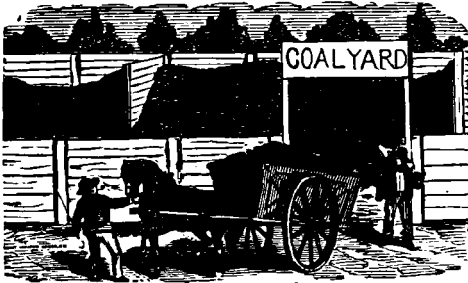

W. A. GREENOUGH & CO.,

Editors and Publishers.

August, 1883.
