BRUNSWICK, MAINE

Form of Government
Town Manager.

Population
15,797 (1960).

Tax Rate
$36.70 per $1,000 (1965).

Area
44 sq. miles.

Church Buildings
16 with 12 denominations.

Hotels & Motels
Eleven.

Average Temperature
50 degrees.

Parks
One public park.

Bonded Debt
$1,569,000. (1963).

Assessed Valuation
$38,770,000 (1963).

Building Construction
Value of 136 permits $2,688,985.00 (1962).

Financial
Three commercial banks and 1 savings bank with total assets of $189,243,850.45 and one savings & loan assn.

Post Office Receipts
$187,949.30 (1962 Calendar Year).

Telephones
5,240.

Public Libraries
Curtis Memorial Library containing 25,000 volumes and Hubbard Hall at Bowdoin College.

Hospitals
Two with 96 beds.

Newspapers
One weekly, Brunswick Record.

Radio Stations
One, WCME.

Railroads
Maine Central Railroad - Freight only.

Highways
U.S. 1, U.S. 201, State Hwy. 24 & 123 and Interstate 95.

Theatres
One movie theatre and two drive-ins. Pickard Theatre, Bowdoin Campus, home of Brunswick Summer Playhouse.

Educational
Bowdoin College. Also 9 schools including one high school and one parochial school. Number of pupils in public schools, 3,475. Number of pupils in parochial school, 750.

City Statistics
Total street mileage, 230 miles of road. Capacity of water works, 5,000.000 gallons daily. Number of water meters, 4,215. Fire Department consists of 11 regulars and 32 volunteers with 7 pieces of equipment and one station. Police Department consists of 17 policemen and 2 pieces of motor equipment.

HISTORY

Brunswick, Maine, is the shopping center for the East Casco Bay area. It is a community of approximately 16,000 population, and is an unusually attractive town with wide, well-planned streets and a great many old trees and houses.

The principal street, Maine Street, was laid out in 1717, when the citizens voted to construct a thoroughfare that would be 12 rods wide. This was an unusual thing to do in a time when cities were not generally planned, but grew up higgledy-piggledy. Maine Street, named after the State of Maine, retains its original width and is the widest street in Maine.

Brunswick was first settled in 1628, and originally called "Pejepscot". The town was incorporated in 1738, and named in honor of the House of Brunswick, in England.

Brunswick started life as a fur-trading post, run by a Thomas Purchase. He developed a superior method of curing the salmon that he caught in the falls and built up such a good business in exporting fish along with his furs that others were attracted to the vicinity, and quite a thriving little settlement evolved.

Purchase consistently cheated the Indians, however, so that the first violence of King Philip's War in Maine was the destruction of the Purchase block house. The place was constantly harassed all during the French and Indian Wars, in spite of the building of forts and the placing of garrisons. During the wars, Brunswick was burned and re-established three times.

Two stories concerning the Indian name for the town conflict. One has it that the original name meant "crooked like a diving snake", describing a part of the Androscoggin River; another points to its being a favorite and best hunting ground of the Indians—"place of much fish, fowl, and beasts".

Conflict that existed between the white men and Indians settled down in 1730, when the uninterrupted development of Brunswick really began.

Today Brunswick is a thriving, growing community which has maintained a colonial and traditional, quiet atmosphere for living. The major business activity of the town is commercial, but light industry is finding the community increasingly attractive. An active citizen's industrial development committee has recently assisted in the construction of about 131,000 square feet of manufacturing space with more in prospect. The highly adaptable labor supply, converging highways and transportation facilities, stable tax rate, and wonderful liveability of the area make it extremely suitable for new and expanding industry.

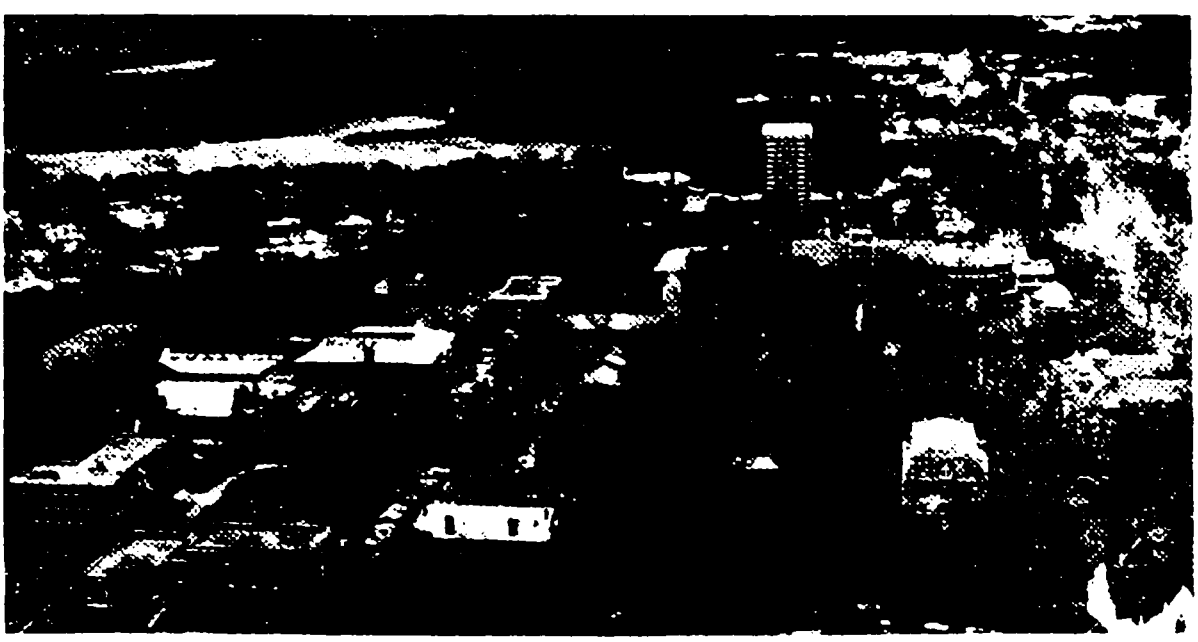

Area liveability is enhanced by an excellent school system, and a progressive community facility improvement program. The two modern hospitals have served to attract an excellent medical staff to the area.

Retail trade has been the backbone of Brunswick for many years. The remodeling of retail outlets and the construction of large new shopping centers are serving to reinforce Brunswick's position as an area trading center.

Recreational and vacation facilities in the Brunswick Area are appealing to all members of the family. The Summer Playhouse, Animal Park, and beaches all add to the pleasure of the scenic rocky coastline with its fishing villages and recreational opportunities.

Of great importance to the Town is the operation of the two military installations, the Brunswick Naval Air Station and the Topsham Air Force Installation. The increase in population associated with the operation of these bases has been of value in raising the whole level of trading and commercial facilities available to local residents. It should also be noted that the Town has many other more indirect ways which it has benefitted from the influx of residents drawn from all over the country.

While Brunswick is thus able to offer an unusual variety of cultural, recreational and commercial attractions to its citizens, it still has the charm of a small town. In addition, its own resources and opportunities are supplemented by the easy accessability to Portland and Boston.

THE BOWDOIN CAMPUS

Bowdoin College, established in 1794 as a liberal arts college for men, is Maine's oldest institution of higher learning. She has grown from a single building (Massachusetts Hall) to the present spacious campus with some 890 students from most of the 50 states and many foreign countries. The College's many physical facilities, such as the library, art museum, skating arena, swimming pool, tennis courts, gymnasium, theater, etc., are available to the community. Residents of the area are able to enjoy or participate in a year-round schedule of concerts, dramatic productions, art exhibits, lectures, sports events, and other programs of the College. To a considerable degree the Town has drawn upon the College faculty and personnel for service in numerous community activities. The campus of the College itself does much to enhance the physical attractiveness of Brunswick.

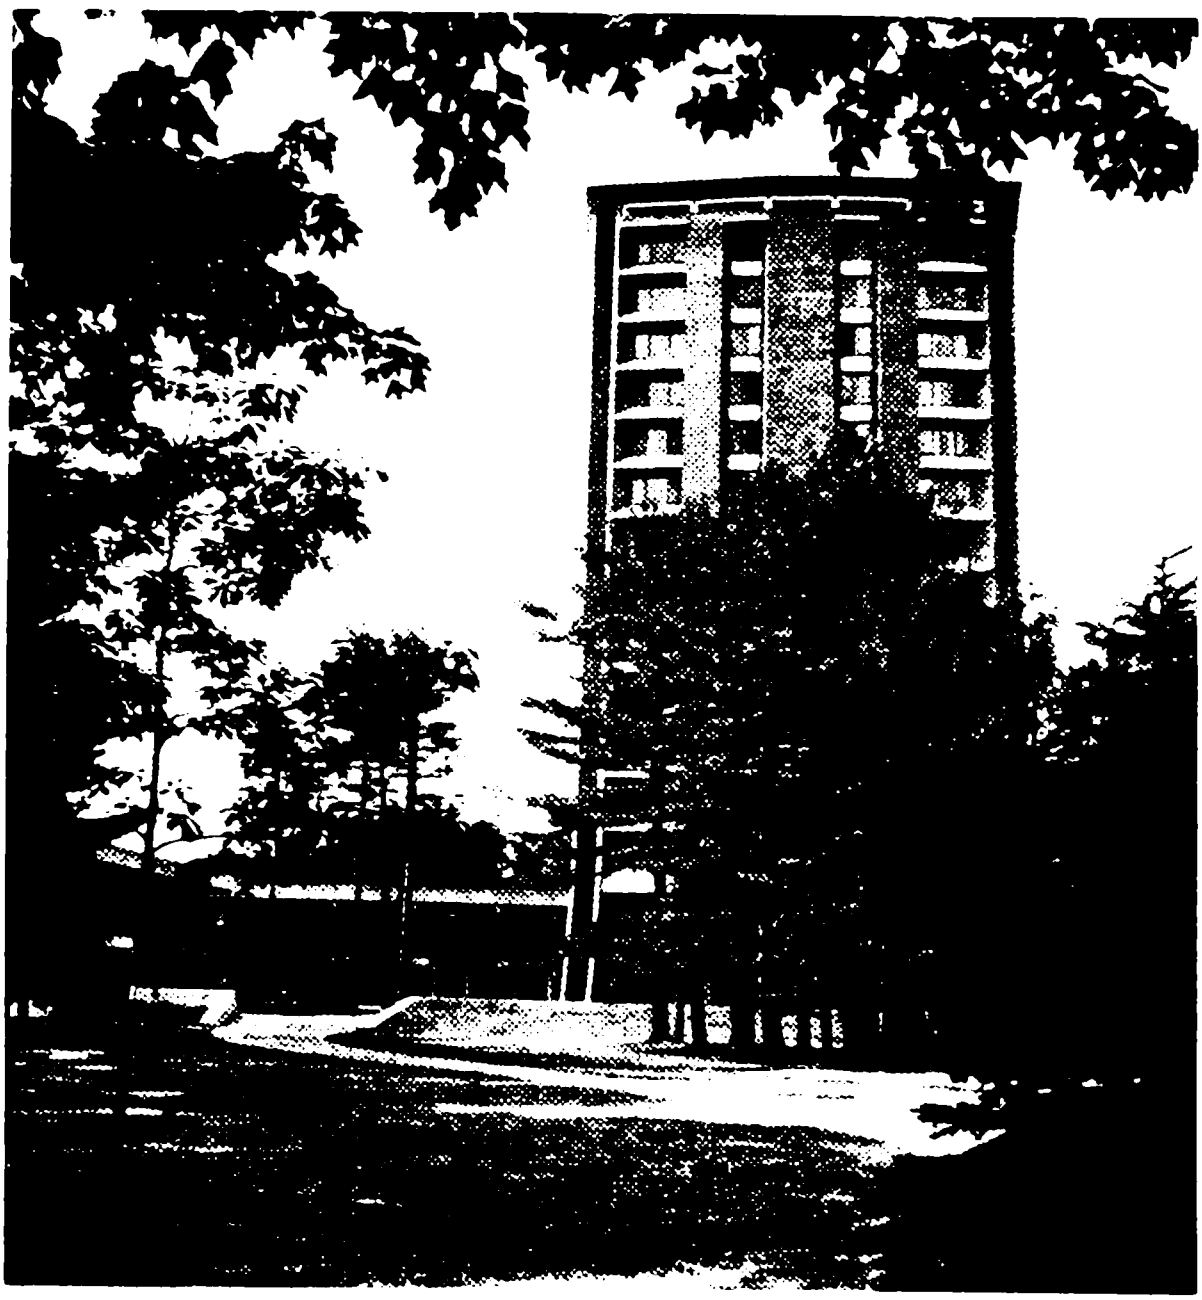

SOME OF BOWDOIN'S FAMOUS PINES

But the best monument in Brunswick is no man-made thing; rather, it is the famed Bowdoin Pines, which are located along U. S. Route 1 on Bath Street. They are the small remnant of the dense forest that once covered the whole country with white pines. These are the pines that were once called the mast pines, the pines on which the great shipbuilding industry of Maine was based, the pines that caused much of our trouble with England. This great natural resource was squandered prodigally, until only this little grove remains, saved through the foresight of the College. Some of the trees rise up for 70 feet before the branches begin, and many of them were standing there before the first white man came to America.

The history of Bowdoin College, which is nearly coextensive with that of the Republic, has its full share of stirring and picturesque episodes but, with perhaps one exception, is free from those dramatic crises which offer a ready means of division into "periods.' Contemplating the development of the tiny seminary of learning which opened its single narrow door to students in 1802 into the vigorous and firmly established college of today, with its multifarious activity, we are impressed by the gradualness of the transformation, the continuity underlying change. One contributing factor has been the relatively long terms of the administrators; in the 163 years of its active history, Bowdoin has had but nine presidents. The term of Presidents Hyde and Sills alone span sixty-seven years. It is, then, largely for reasons of convenience that we may mark off four periods: the first from 1794, the year of incorporation, to 1802, covering the founding of the College; the second from 1802, the year the College opened, to 1839, extending through the terms of Presidents McKeen, Appleton, and Allen; the third from 1839 to 1885, including the terms of Presidents Woods, Harris, and Chamberlain; the fourth from 1885 to the present time, comprising the terms of Presidents Hyde, Sills and Coles.

Bowdoin College is located in the town of Brunswick, Maine, which was first settled in 1628 on the banks of the Androscoggin River, a few miles from the shores of Casco Bay. The travelling time by auto from Boston in less than three hours. The present campus, which was originally a sandy plain covered with blueberries and pines, is now a spacious tract of one hundred and ten acres containing more than a score of buildings and several playing fields.

In 1948, a new street was laid out forming the eastern boundary of the campus and the old playing ground known as "The Delta," previously cut off by Harpswell Street, was incorporated in the campus proper. Thus an area of several acres was made available for new buildings. These included Sills Hall and the Smith Auditorium completed in 1950, and Parker Cleaveland Hall of Chemistry completed in the Spring of 1952.

THE BOWDOIN COLLEGE SENIOR CENTER

In recent years Bowdoin undertook a succesful Capital Campaign to enrich her academic program, improve her physical plant and increase enrollment by 20 per cent. The largest of the campaign goals was the Bowdoin Senior Center, a group of three buildings completed in 1964 and now housing a pioneering program of integrated study and environment for members of the Senior Class. One of the structures is a sixteen-story residence tower which has provided an attractive addition to the Brunswick landscape. The unique program offers the Senior a more meaningful and rewarding educational experience as the climax to his undergraduate years.

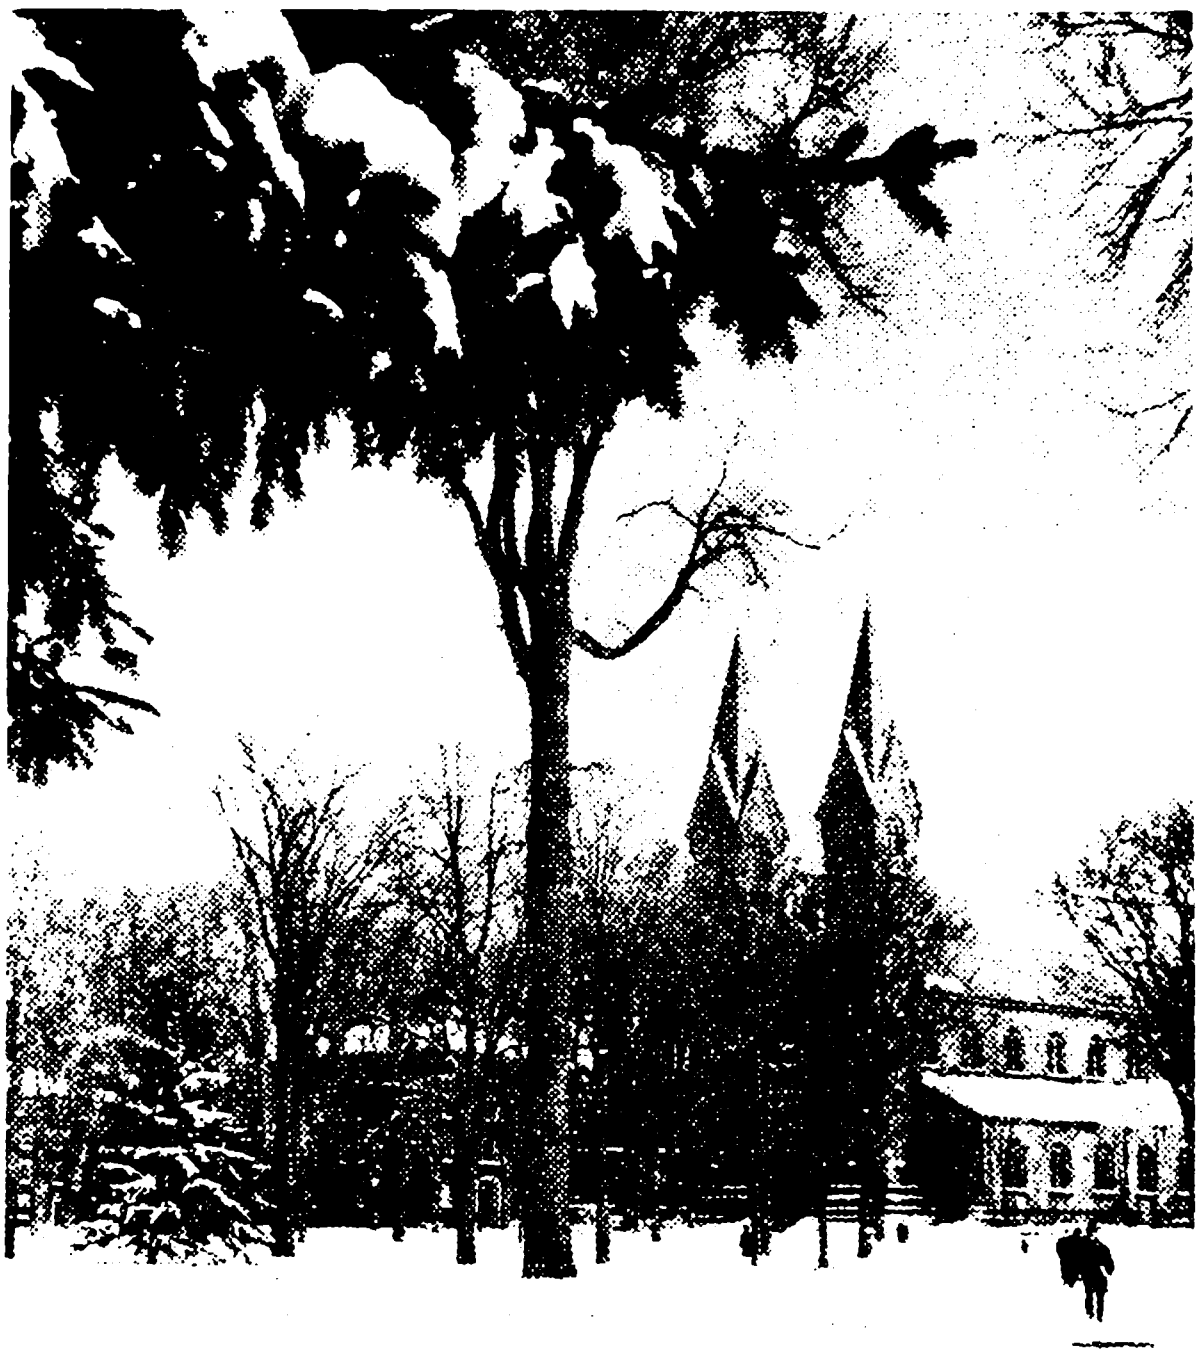

THE NEW BOWDOIN COLLEGE GYMNASIUM

Completed in 1965 were a new Gymnasium, with which the College is strengthening its traditional policy of "athletics for all," and the new Hawthorne-Longfellow Library, named in memory of two of Bowdoin's most illustrious alumni. A reading room on the second floor of the new Library is named for another famed Bowdoin alumnus, Franklin Pierce, who was the 14th President of the United States. Also completed in 1965 was an addition to the College's social center, the Moulton Union.

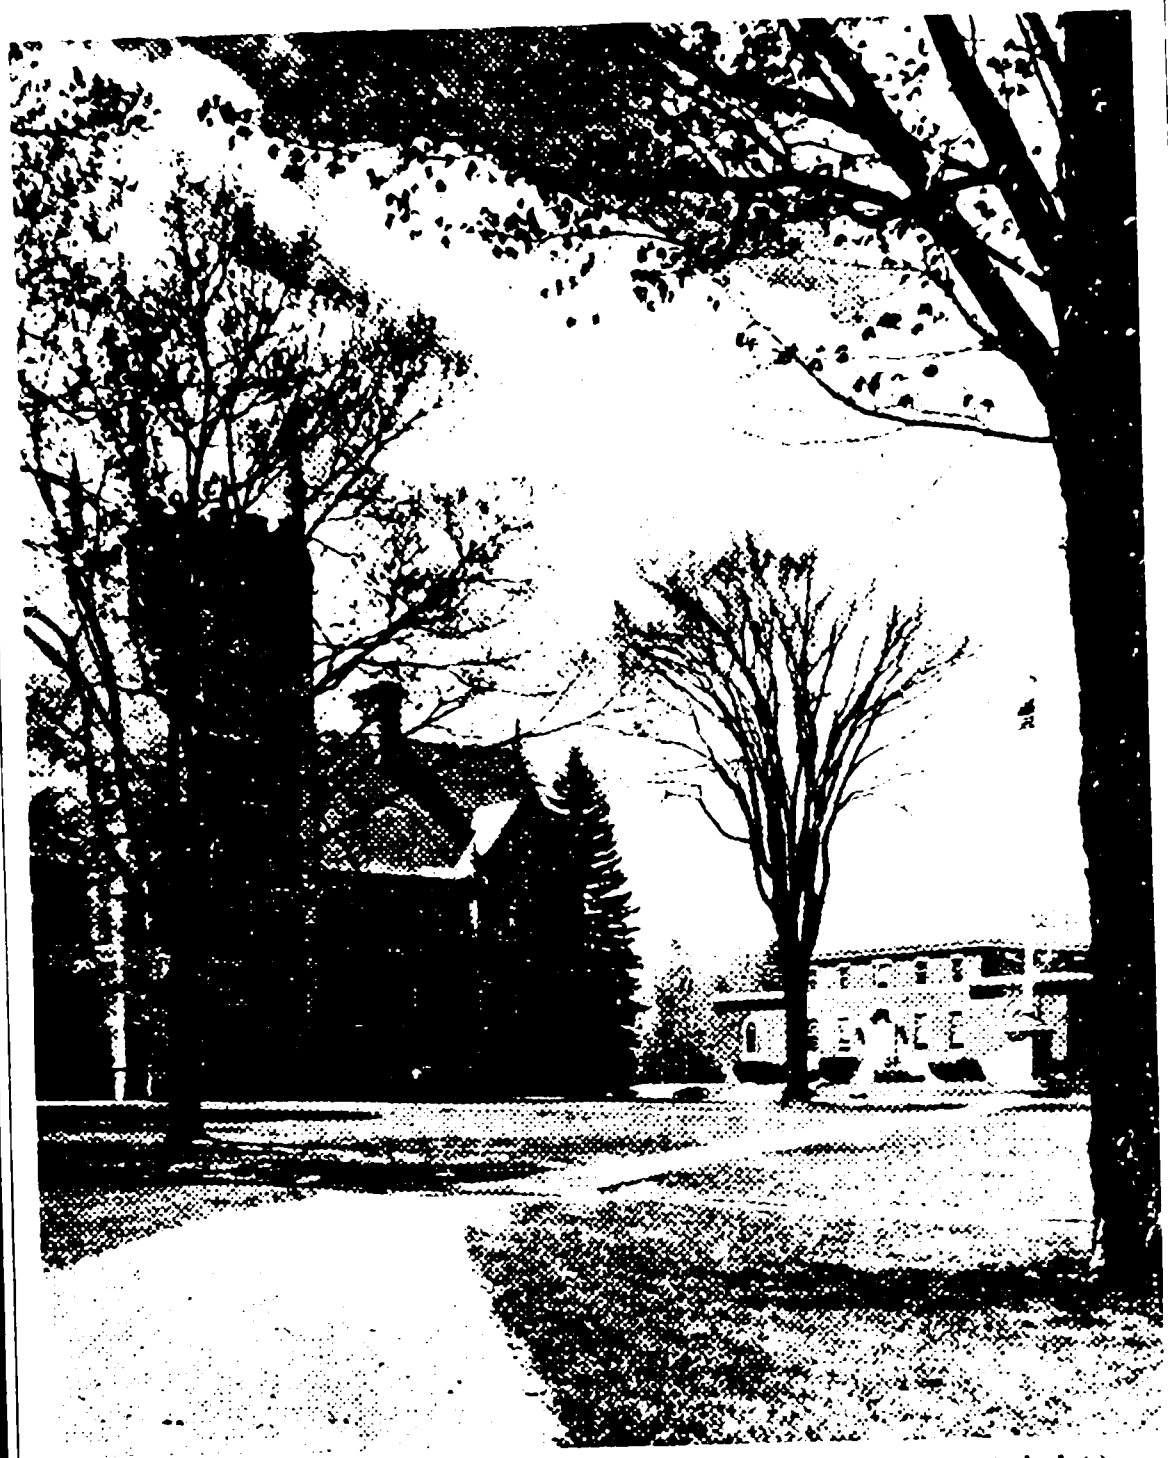

MASSACHUSETTS HALL

Of special interest to the incoming freshman and campus visitors is Massachusetts Hall, the original College building, which for many years housed some of the College's administrative offices. During 1965 and 1966 the administrative offices will be centralized in Hawthorne Longfellow Hall at the western end of the new library building. Massachusetts Hall will be returned to instructional purposes.

THE BOWDOIN CHAPEL

The Chapel, whose twin spires have come to be a symbol of Alma Mater to thousands of Bowdoin men, is the scene of non-denominational vesper services on Sundays at 5 o'clock. The President of the College usually presides at these services, and in the course of the year distinguished spokesmen from Protestant, Roman Catholic, Jewish and other denominations preach. And one morning each week from 10:00 to 10:30 a.m. a Chapel Service provides an opportunity for worship and meditation.

HUBBARD HALL (left) and GIBSON HALL (right)

The work of the College has its heart and center in the library. Hubbard Hall was the College Library for over 60 years until completion of the Hawthorne-Longfellow Library in the fall of 1965. The College retained the stack area of Hubbard Hall for future library use and, after suitable renovations, the remainder of Hubbard Hall will be used to provide additional instructional facilities that will include faculty offices, a language laboratory, an oral communications laboratory and a computing center. An Arctic Museum, honoring Admirals Robert E. Peary and Donald B. MacMillan, both Bowdoin alumni, will be established on the first floor of Hubbard Hall.

THE HAWTHORNE — LONGFELLOW LIBRARY

The Hawthorne-Longfellow Library currently occupies 60,000 square feet of a total of 80,000 and has a book capacity of 407,000 volumes. When it occupies the entire new building, the library will have a capacity of 575,000 volumes. The 200,000-volume capacity of the Hubbard Hall stack area gives Bowdoin a total planned capacity for library holdings of 775,000 volumes.

WALKER ART BUILDING

The Walker Art Building houses the art treasures of the College and is the scene of special exhibitions throughout the year. Many paintings of old and modern masters were included in the art collection given to the College by its earliest patron, the Honorable James Bowdoin. The Harvey Dow Gibson Hall of Music, dedicated in 1954, contains class, rehearsal and practice rooms, a recording room, rooms for listening to records, offices and a music library.

PICKARD THEATER, MEMORIAL HALL

Memorial Hall, built in 1868, is a memorial to the graduates and students of the College who served in the Civil War. The entire interior was rebuilt in 1954-55 to house the Pickard Theater, one of the many gifts of Frederick William Pickard, LL.D. (1871-1952), of the Class of 1894. The theater has comfortable seats for more than 600 and a stage 55 feet wide and 30 feet deep, with the floor of the auditorium sloping to an orchestra pit.

College classes are held in Memorial Hall, Banister Hall, Adams Hall, Hubbard Hall, the Searles Science Building, Sills Hall, Smith Auditorium, Cleaveland and Gibson Halls, the Walker Art Building and the Senior Center.

The Searles Science Building, which stands on the western side of the quadrangle, contains laboratories, museums, recitation rooms, and lecture halls. The Department of Physics occupies mainly the first floor and the southern half of the second floor; the Department of Biology occupies the northern half of the second floor and the entire third floor. Special laboratories and museums of both departments are located in the basement. Astronomical equipment and observing facilities are situated on the fourth floor and roof. The College maintains a scientific station for special laboratory and field investigations on Kent Island,

at the entrance to the Bay of Fundy. This island was presented to the College in 1935 by John Sterling Rockefeller. Parker Cleaveland Hall houses the Department of Chemistry.

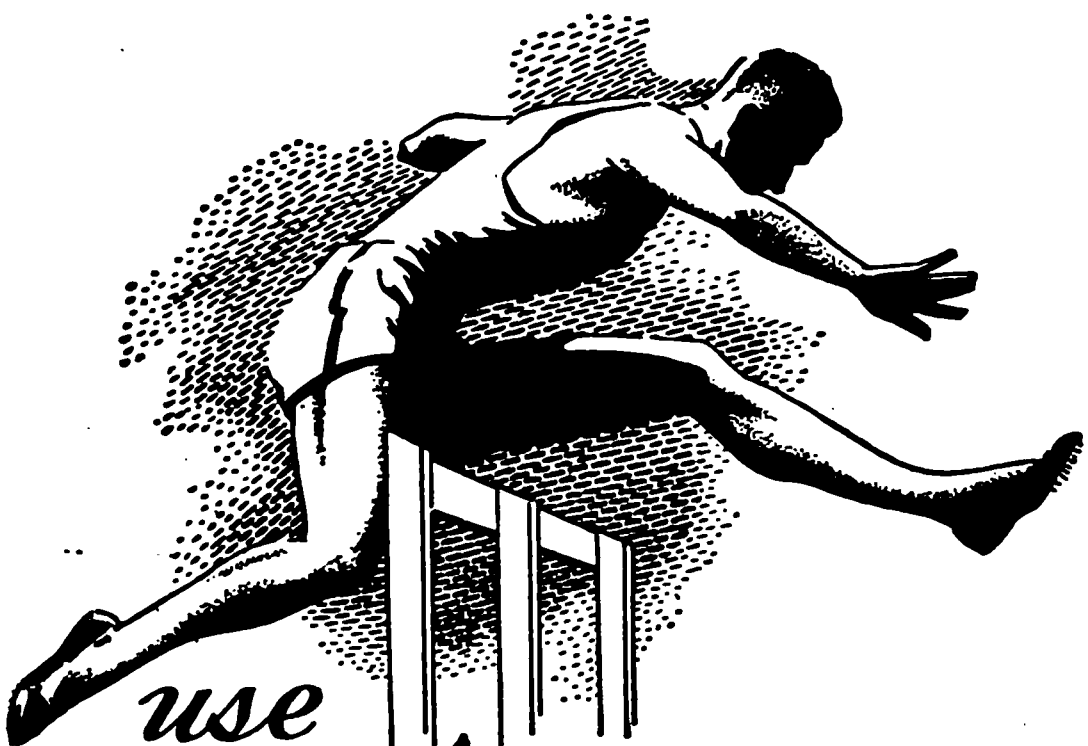

When students are not engaged in the library, laboratories, and recitation rooms, they have at their disposal many admirably equipped facilities for recreation. These resources include the Moulton Union, the new Gymnasium, the Sargent Gymnasium, the Hyde Athletic Building, the Curtis Pool, and the playing fields of the College. Special provision for intramural sports and informal games was made in 1926 by the gift of a tract of sixty-six acres by Mr. Pickard. Pickard Field contains facilities for tennis, baseball, soccer, football, and other sports. The Pickard Field House, a gift from Mr. and Mrs. Pickard, stands at the entrance to the field. The Hockey Rink, dedicated in the autumn of 1956, provides artificial ice for recreational skating as well as intercollegiate contests. Another valuable adjunct for the health of the student body is the Dudley Coe Memorial Infirmary and the services of a full-time College Physician and his staff.

The six campus dormitories are Maine Ends (1808), known originally as "the College," and named later to commemorate the admission of Maine to the Union; Winthrop Ends (1822), named in honor of Governor John Winthrop of the Massachusetts Bay Colony; Appleton Hall (1843), named in honor of the second President of the College; Hyde Hall (1917), named in honor of the seventh President of the College, and built from contributions from many of the Alumni; Moore Hall (1941), named in honor of his father by the donor, Hoyt Augustus Moore, LL.D., of the Class of 1895; and Coleman Hall (1958), named in honor of the family of the donor, Jane Coleman Pickard (Mrs. Frederick W. Pickard). Maine and Winthrop were renovated in 1964-65, with Appleton scheduled for renovation early in 1966.

The Chapel, a Romanesque church of undressed granite, designed by Richard Upjohn, was built during the decade from 1845 to 1855 from funds received from the Bowdoin estate. The facade is distinguished by twin towers and spires which rise to the height of one hundred and twenty feet. The interior resembles the plan of English college chapels, with a broad central aisle from either side of which rise the ranges of seats. The lofty walls are decorated with twelve large paintings. The Chapel stands as a monument to President Leonard Woods, fourth President of the College, under whose personal direction it was erected. A bronze plaque bearing a bas-relief of Elijah Kellogg, of the Class of 1840, is placed in a recess to the right of the main doorway. A set of eleven chimes, the gift of William Martin Payson, of the Class of 1874, was installed in the southwest tower in 1924. In the Chapel is an organ given in 1927 by Cyrus H. K. Curtis, LL.D. That portion of the chapel building which formerly housed the reading rooms and stack space of the college library was named Banister Hall in 1850 in recognition of the gifts of the Honorable William Banister. It now contains the offices of the Director of the Placement Bureau and the offices, lecture room and laboratory of the Department of Psychology.

High Hurdles. . . .

In business as well as in sports there are High Hurdles to overcome. Your ad in the Directory, where multitudes will see it, will help to overcome many of the business hurdles.

Names Appearing In Black Letters

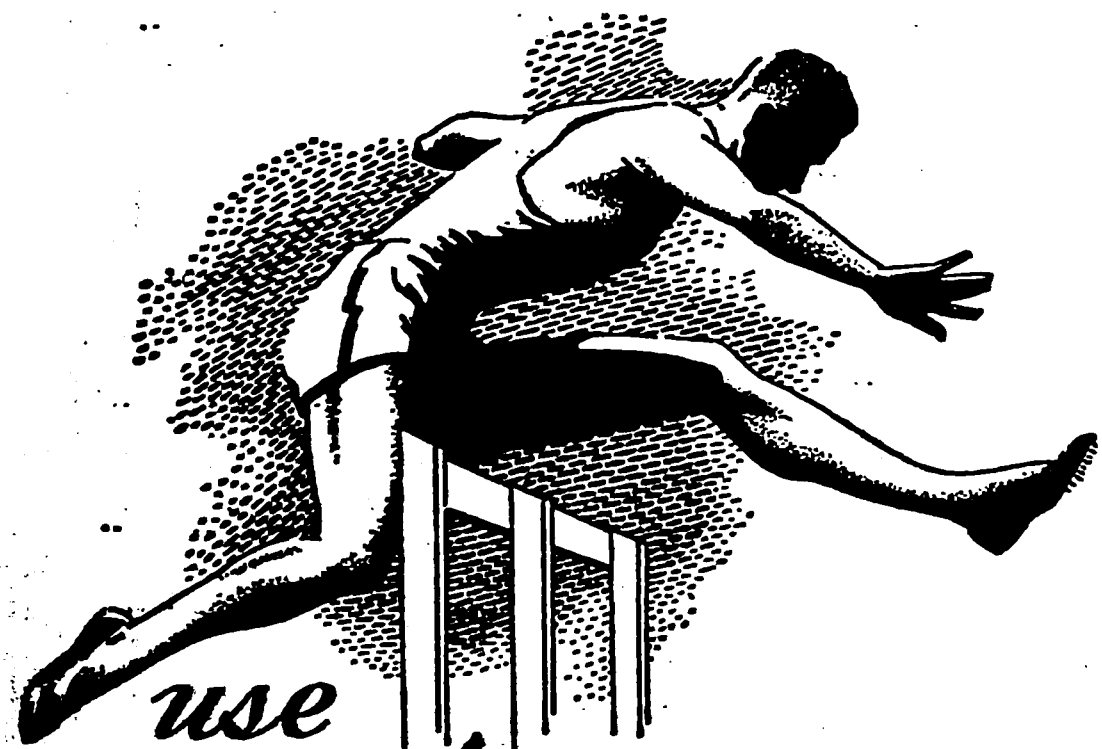

~

IN THIS DIRECTORY are the names of those people who ACCOMPLISH THINGS and are entitled to favorable consideration, if for no other reason than their public-spirited support of measures which make for progress. They represent that ENERGY AND PUSH so essential to the commercial prosperity of the City, and in dealing with them no mistake will be made. The publishers are honored in thus making them better known to the public.

. . . *Patronize Them*

High Hurdles. . . .

In business as well as in sports there are High Hurdles to overcome. Your ad in the Directory, where multitudes will see it, will help to overcome many of the business hurdles.

STOP OR GO!

Red means Stop—Green means Go. Your ad in the Directory is the Green signal to Go—and the results will be a Green light all along the way.

DIRECTORY

Advertising

PAYS DIVIDENDS

ALPHABETICAL DIRECTORY

ITS PRACTICAL USE IS TO GIVE

Information—as to the complete name of each person over eighteen years of age, or any person employed.

Information—as to the occupation of each person over eighteen years of age, or any person employed.

Information—as to the address of each person over eighteen years of age, or any person employed.

Information—as to the nature and activities of firms and partnerships.

Information—as to names of each member of firms and partnerships.

Information—as to names of corporations, their nature and activity.

Information—as to the correct spelling of each and every name.

Information—as to whether a person in a "householder" (h) or "reside with" (r).

Information—as to what is the wife's name of each married man.

Information—as to what was the husband's name of each widow.

Information—as to the location of removals from city.

Information—as to the age and date of death of persons appearing in the preceding directory.

Information—as to those seeking prominence and prestige by display type.

—Finally—

Our Ideal

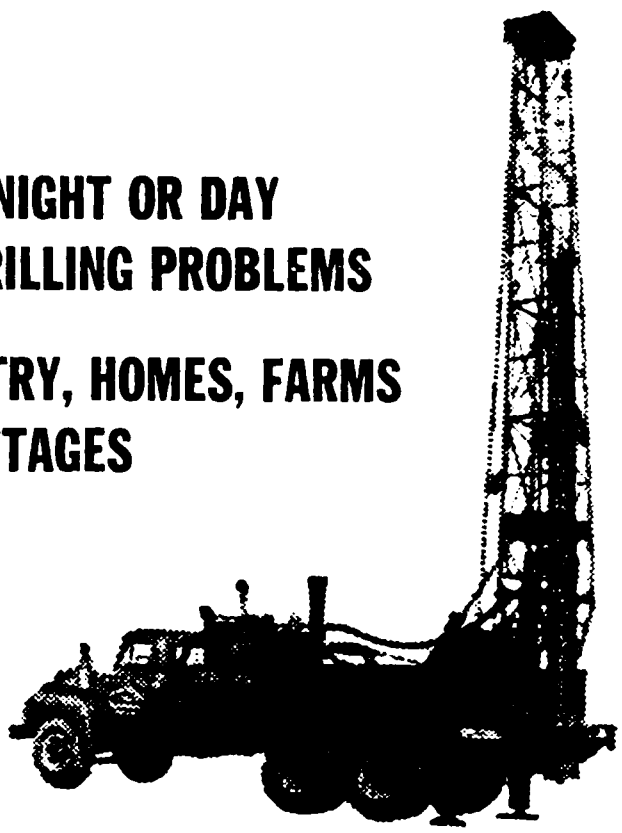

"If it has a name and location — it's here"

BRUNSWICK NUMERICAL DIRECTORY

EXPLANATORY NOTES

The streets are arranged alphabetically with their descriptions, each description followed by a numerical arrangement of householders, places of business and street intersections. (Arranged by rotation where no numbers have been assigned.)

The abbreviation r between the street number and the name signifies "rear."

The word "vacant" after a number signifies that the house, office or store at that number was vacant when the canvass was made.

🔔 Indicates telephone at this number.

"Right even" after street description indicates even numbers on right side of street.

The symbol ◎ preceding a householder's name indicates that information has been secured during the canvass that the house is owned by some member of the family, but as the publishers cannot and do not guarantee the correctness of the information furnished, nor the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publishers furnish further information than that shown.

Names Appearing In Black Letters

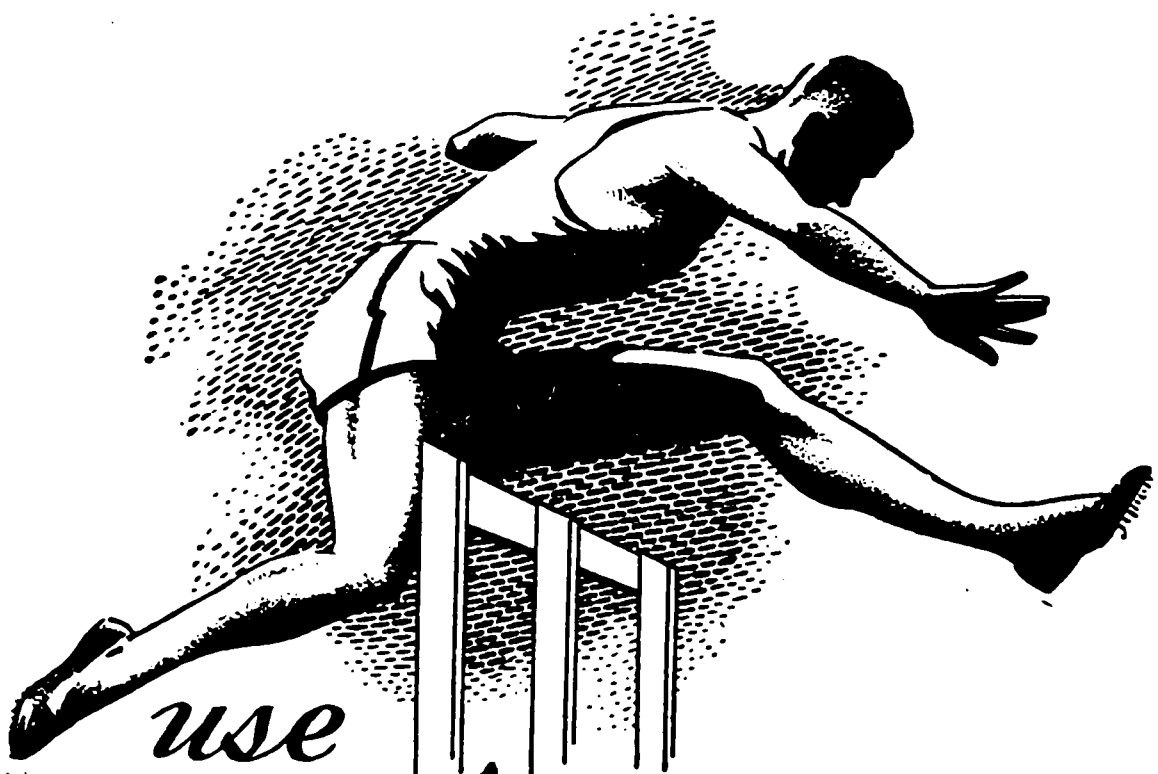

~

IN THIS DIRECTORY are the names of those people who ACCOMPLISH THINGS and are entitled to favorable consideration, if for no other reason than their public-spirited support of measures which make for progress. They represent that ENERGY AND PUSH so essential to the commercial prosperity of the City, and in dealing with them no mistake will be made. The publishers are honored in thus making them better known to the public.

. . . *Patronize Them*

High Hurdles. . . .

In business as well as in sports there are High Hurdles to overcome. Your ad in the Directory, where multitudes will see it, will help to overcome many of the business hurdles.

Advertisers Who KNOW

That which makes any advertiser's approval worth while is the prominence he has attained in his particular line of work.

The *advertisers in the Directory* are competent judges on the subject of advertising mediums—the fact that they approve of *Directory advertising* is evidenced by their continued patronage.

WELD

Production

TO GREATER SALES

The welder takes two pieces of rod—welds them together, thus making one complete product. Why not take a tip from the welder—make directory advertising a part of your sales program. Weld the loose ends of production and sales together.

8760

AD HOURS PER YEAR

8760 hours — 365 days.— day and night, the directory works for you. All advertisers are listed under their respective business headings —in alphabetical order for easy reference. It will pay you to—

....use

Directory Advertising
