# About Your Directory

## TIPS ON USING YOUR DIRECTORY

To locate the information you need, refer to the Table of Contents. It will give you the location of the section carrying the information you are seeking such as town officials, businesses, street, alphabetical, or numerical telephone listings.

## ALPHABETICAL SECTION

Suppose you require information about Mr. John Doe. Turning to the Alphabetical Section, you would look under the letter "D" and find, for example,. "Doe John E (Sarah T) slsmn Smith's Shoe Store h 12 Middle St Bruns." This would give you John Doe's full name, his wife's name, his position and place of employment, "h" indicating that he is the head of the household—as opposed to "r" signifying one who resides—and his home address. If Sarah Doe is employed, she will be listed a second time under her given name with her position and place of employment. Her home address will appear, preceded by the symbol "r". Finally, if there are other occupants of the John Doe household who use his address as their **legal address** they too will be listed in the above manner, but all will appear with the symbol "r".

Business concerns are listed in the alphabetical section with the names of managers or chief executives and their titles.

## STREET SECTION

Suppose you wish to locate a party named "Doe" on Middle Street in Brunswick. The Table of Contents guides you to the Brunswick street listings. Looking under "M" you will find Middle Street with the houses listed sequentially. A glance down the listing will reveal, "Doe John E." Additionally you will find the telephone number for that residence, and you may find the symbol*. The latter, when it appears, indicates that John Doe is the owner, rather than the tenant, of that residence.

The editors have tried to place all listings sequentially in the street section. A dash which appears in place of a street number indicates a building which has not been assigned a regular street number by the town. Where the sequential location of a building could not be determined because of editorial limitations, the listing appears at the end of the street with a dot • before the name.

## NUMERICAL TELEPHONE DIRECTORY

Suppose that you have found an item in t classified section of your local newspaper th you would like to buy. If you look up the telepho number given in the advertisement in the Nume cal Telephone Directory you will be able to det mine who has the item for sale. You may th want to consult the Alphabetical Section for mc information before purchasing the item. This s tion is also invaluable when you wish to ident and return telephone calls for which only a nu ber is given.

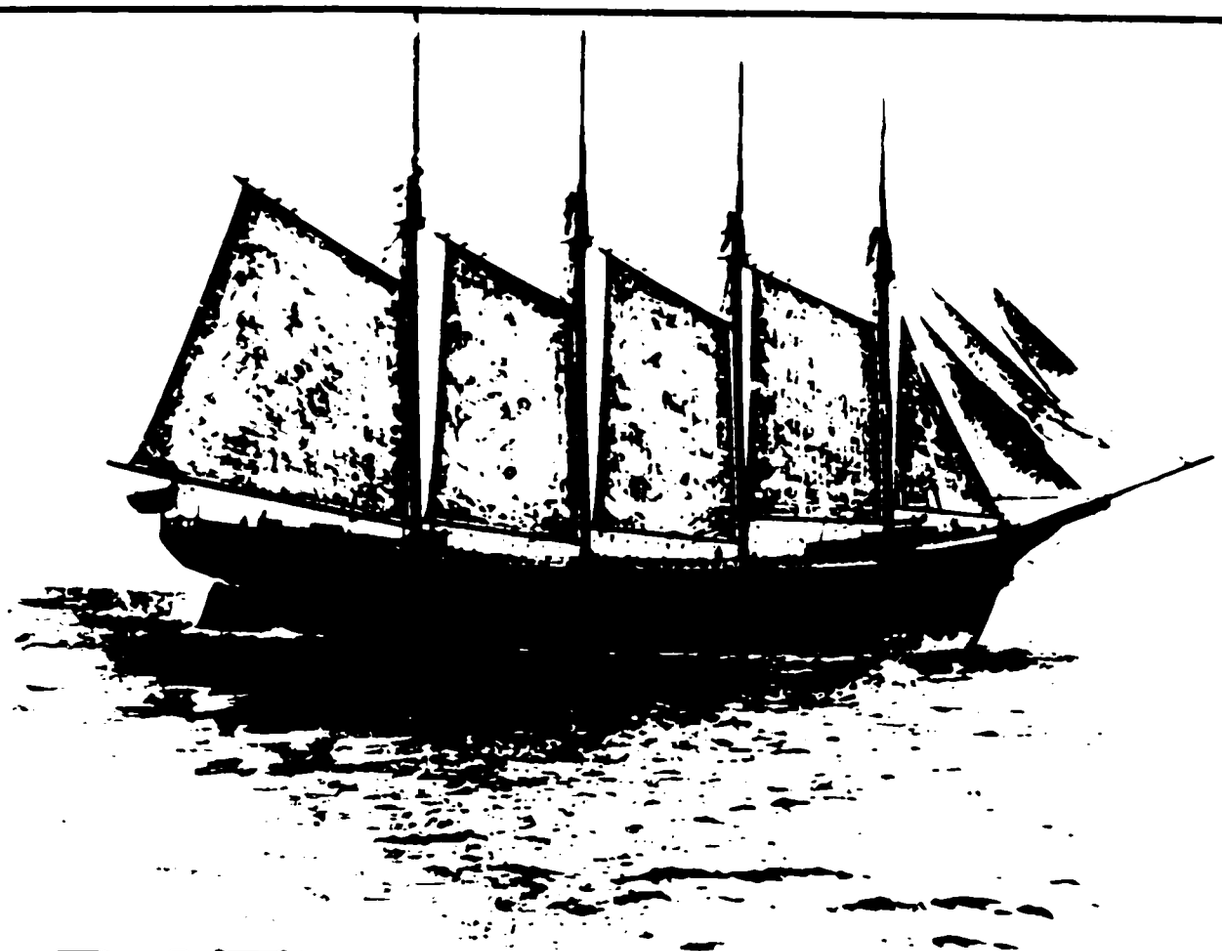

## CLASSIFIED BUSINESS DIRECTORY

Consult the Classified Business Directory wh you need an item or service. You will f courteous, efficient and friendly profession and tradespeople ready to serve your needs.

In addition to the Classified Business Direct your Bath-Brunswick Directory includes, for first time in this edition, a comprehensive alp betical listing of area businesses, together v their addresses, phone numbers, and classif tions. This listing is useful for finding addres and phone numbers quickly, and it also shows kind of service or product each business provic

## ABOUT THE INFORMATION IN YOUR DIRECTORY

The information contained in your directory obtained from personal interviews by a comp door-to-door canvass. Each street within coverage area was physically canvassed. Whe was found that the occupants of a household v absent from home, a pre-paid return post card left. This method of obtaining information costly and time-consuming operation. The p lishers feel that by conducting the census in manner, we have made every attempt to make y directory as comprehensive and accurate possible. The publishers cannot and do guarantee the accuracy of all information nished them nor the complete absence of o sions or errors, hence no responsibility for s can be or is assumed. The publishers do, howe welcome any inaccuracy being brought to thei tention, so that it may be corrected in the next tion.

# BATH AREA MAINE
## Chamber of Commerce

The Bath Area Chamber of Commerce is the local volunteer organization of the business community and area municipalities. It unites business and professional firms, working with local governments, as a central agency which lends itself to cooperative efforts to improve the economic climate and build a better community.

Among the Chamber's services to the greater Bath area are: a SCORE/ACE chapter for business counseling, the Downtown Bath Redevelopment Committee, the New Business Development Committee, the Area Merchants, and the Tourist Booth on I-95 at Witch Spring Hill.

# BATH - BRUNSWICK AREA UNITED WAY

The Bath-Brunswick Area United Way is an organization encompassing the communities of Brunswick, Bowdoinham, Harpswell, Topsham, Bath, West Bath, Phippsburg, Georgetown, Arrowsic and Woolwich in a coordinated effort to assist the various participating human service agencies of the area. Relying almost exclusively on a work force of volunteers, the United Way collects and allocates funds to these agencies which rely heavily on the program. The Bath-Brunswick Area United Way is a prime example of people working together to help people.

United Wa

Offices for the Bath-Brunswick Area United Way are located at 4 Centre Street, Bath. Telephor 443-9752 or 729-5145.

# BRUNSWICK HISTORY

Brunswick, Maine, a community of about 18,000, is the trading center for the East Casco Bay area, with a year-round population of close to 60,000, and several thousand summer residents and transients. It is at once an old-line New England town, a college town, and a Navy town.

First settled about 1628 by Thomas Purchase, who set up a trading post and salmon fishery below the falls of the Androscoggin, this area, called Pejepscot by the Indians, served as a crossroads of trails linking the Androscoggin and Kennebec Rivers with the ocean, reached most readily at the head of Maquoit Bay.

In 1639 Purchase entered into an agreement with John Winthrop, Governor of the Massachusetts Bay Company, the first of several agreements which established what was to become the District of Maine as a part of Massachusetts, then a Colony, but later to become a State.

With the opening of King Philip's War, in 1675, Purchase and his associates came under attack, his house was burned, and he and his few neighbors were forced to flee to the Boston area, where he died. In 1683 his lands, with others including most of what now comprise the towns of Brunswick, Topsham and Harpswell, were sold. King Philip's War had ended in 1678, but there were three more wars, and most of the settlers in the District of Maine were evacuated during one or more of these. In 1714, Purchase's lands were again sold, this time to a group of merchants organized as "The Pejepscot Proprietors".

They were the real founders of Brunswick, named by action of the Great and General Court of Massachusetts in June, 1715, probably in honor of the new King of England, George I, who had been the Elector of Brunswick-Lunenberg, in Germany. Settlement began in 1717. The old Fort at the Falls was put into shape and manned and a road, twelve rods wide, laid out between the fort, named for King George, and the landing at Maquoit. That "twelve rod road" still persists in Brunswick's wide Maine Street, its name changed from "Main" to "Maine" with the coming of statehood in 1820. In 1717, too, Brunswick was recognized as a township (not yet a town) and the first public worship service was held.

Five years later disaster struck. There was an Indian raid, with several settlers killed and almost all the houses burned. Many residents left, never to return. This was not the last raid, but by 1735 there was some assurance of peace, and a petition for incorporation as a town, submitted to the General Court, was approved in 1738. Brunswick's people were actively involved in the American Revolution, and after the war the town grew and prospered.

A Post Office was opened in 1793, and a year later Bowdoin College was chartered, to open its classes in 1802. In 1799 the town was divided into school districts, and the keel of the first of many ships to be built was laid. Brunswick-built ships, with Brunswick captains, sailed the seven seas, and several of these men built themselves homes which still grace Brunswick's streets. A turnpike to Bath was built, a textile mill opened, and a newspaper established. Bridges were built across the Androscoggin and in 1849 the first railroad train steamed into town.

Brunswick sent about three hundred and fifty men to the Civil War. Outstanding among them was Major General Joshua L. Chamberlain, a Bowdoin College professor who won high acclaim at Gettysburg, was chosen to receive Lee's sword at Appomattox, and who later served as President of Bowdoin and as Governor of Maine.

Bowdoin College, initially limited to male enrollment, added women to its classes in 1969. A liberal arts college, its graduates include Longfellow, Hawthorne, President Franklin Pierce, and Arctic explorers Peary and MacMillan. It now has a student body of about 1350. The Medical School of Maine, associated with the college, opened in 1820 and closed a hundred years later.

The Brunswick Naval Air Station was commissioned in April 1943 and operated at a high tempo throughout the war years, when it served not only as a base for anti-submarine patrol missions, but in training Canadian Air Force pilots. Deactivated in 1947, it was recommissioned in 1951 and is presently the home port of the six squadrons of Fleet Air Wing Five and the Headquarters of Patrol Wings Atlantic. The increase in population associated with the operation of the air station has raised the whole level of trading and commercial facilities available to local residents, and the town has in many more indirect ways benefited from the influx of residents drawn from all over the country. Relations between the town and the Navy, as between the town and the college, are excellent.

Today Brunswick is a thriving, growing town which has maintained a colonial and traditional, quiet atmosphere for living. The major business activity of the town is commercial, but light industry is finding the community increasingly attractive. An active citizens' industrial development committee participates in all facets of industrial development. The highly adaptable labor supply, converging highways and transportation facilities, stable tax rate, and wonderful liveability of the area make it extremely suitable for new and expanding industry.

Area liveability is enhanced by an excellent school system, and a progressive community facility improvement program. The two modern hospitals have served to attract an excellent medical staff to the area. Retail trade has been the backbone of Brunswick for many years. Continued remodeling of downtown retail outlets and the repeated expansion of a large shopping center serve to reinforce Brunswick's position as an area trading center. Recreational and vacation facilities are appealing to all members of the family. The Summer Music Theater, Animal Park, and beaches all add to the pleasure of the scenic rocky coastline with its fishing villages and recreational opportunities.

While Brunswick is thus able to offer an unusual variety of cultural, recreational and commercial attractions to its citizens, it still has the charm of a small town. In addition, its own resources and opportunities are supplemented by the easy accessibility to Portland and Boston

# BATH HISTORY

The City of Bath and its surrounding Sagadahoc County towns—Arrowsic, Georgetown, Phippsburg, West Bath and Woolwich—are tied to the sea by geography and history. Its focal point, the Kennebec River, has seen great log drives and sent its ice to the major cities of America. The Bath Iron Works, which experienced some decline in the fifties and sixties, currently enjoys a four year, $600 million backlog of orders for new and overhauled ships.

Each year the Bath Chamber of Commerce interviews in person approximately 20,000 tourists who come to the greater Bath area to enjoy boating, sailing, swimming, golf, hiking, and camping.

Among the historic sites in the general area are the Ancient Pemaquid Restoration; Eagle Island, the site of the home of Admiral Robert E. Peary; Fort Edgecomb; Fort Popham; and Fort William Henry. The Maine Maritime Museum, located at four sites in the greater Bath area, is a most popular attraction with 31,000 visitors in 1979. Included in the Museum are the Sewall Mansion, which dates from 1844; Winter Street Center, a Gothic Revival church; the Percy and Small Shipyards; and the Apprenticeshop which exhibits actual construction of small wooden boats traditional to Maine.

Bath boasts two of the finest beach areas in the State of Maine. Reid State Park in Georgetown and Popham State Park combined had a total of 296,594 visitors in 1979. Reid State Park has a mile and a half of sand beaches with ample parking, snack bars and bathhouses. A number of restaurants are also available in the Popham Beach area.

# CITY AND TOWN GOVERNMENT

## CITY OF BATH GOVERNMENT

Shire town of Sagadahoc County. Thirty-nine miles from Portland. On M.C.R.R. First explored by G. Weymouth in 1605. Deeded to Rev. Robert Gutch, from Salem Mass., by Robin Hood, an Indian sachem, May 29, 1660. Formerly part of Georgetown. Incorporated the forty-first town, February, 1781. Council-Manager form of Government adopted September 9, 1947. Organized March 1, 1948.

1950—Population, 10,644; Polls, 3,225; Estates, $10,492,315. 1960—Population, 10,717; Polls, 3,171; Valuation, $12,787,445. 1970—Population, 9,679; Polls, 2,379; Valuation, $44,585,590; 1980—Population, 10,246; 1983—Valuation, $251,550,000.

March of Dimes
BIRTH DEFECTS FOUNDATION

**PREVENTION OF BIRTH DEFECTS**—We are a major factor in the fight to conquer birth defects that today affect 15,000,000 living Americans and in our own State of Maine makes victims of 1,100 newborn infants every year. Only by prevention can we reach the goal of giving every baby a healthy, vigorous start in life.

Property Management, Consultation
. . . It's not easy today but . . .
We do everything
everyone else does.
We just do more of it . . .
Better . . . Quicker.

# What do you look for in a Print Shop?

***First,*** you look for Quality.

***Second,*** you look for service that is efficient without sacrificing quality.

***Finally,*** you look for a price you can live with.

At ***SEAVEY PRINTERS,*** we'll balance all three to give you the quality & service you're looking for, at a price you can afford.

# What do you look for in a Print Shop?

***First,*** you look for Quality.

***Second,*** you look for service that is efficient without sacrificing quality.

***Finally,*** you look for a price you can live with.

At ***SEAVEY PRINTERS,*** we'll balance all three to give you the quality & service you're looking for, at a price you can afford.

**SEAVEY PRINTERS, INC.**

## EXPLANATIONS AND ABBREVIATIONS

In the following list the streets are arranged in alphabetical order with the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house-owner or tenant. When a 1/2 appears in a listing before a name, it refers to the street number; look to the number immediately above that listing containing the 1/2 and if, for example, it is 30, that occupant's address is 30½. In the business blocks containing offices the occupants are shown by room numbers where practicable; in apartment homes the number denotes the number of the apartment. A capital letter R appearing in the listing before an occupant means Rear (of the building); 2Fl, 3Fl, etc. mean second floor, third floor, etc. In all streets both sides of the street are included in numerical order in one list. A dash (—) which appears to the left of a householder's name indicates a building which has no assigned street number. The word OFF indicates a building which is not immediately visible from the road. The profession or business of individuals or firms is given only at their respective place of business; if an individual's name is listed twice, this denotes that their home is also their place of business. To find occupation of others refer to alphabetical list of names.

The symbol (*) following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished nor the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass, are shown after names.

This section includes some listings reading "No return." In each case the publisher tried diligently, by various means, to obtain the information from the occupants but was unsuccessful.
